DISCUSSION: The Site Inspection Prioritization (SIP) report for this site completed by the Alternate Remedial Contracting Strategy contractor Fluor Daniel was reviewed. Extensive studies have been performed at this site. The facility is voluntarily remediating the site under the supervision of the Texas Natural Resources Conservation Commission (TNRCC) and the City of Farmer's Branch. The TNRCC is in the process of issuing a Consent Order to complete the remediation at the site. Based on the results of the SIP, a decision of No Further Remedial Action Planned (NFRAP) will be entered because this site will not qualify for inclusion on the National Priorities List of Superfund sites.
